

Machine Learning and AI specialist

If you are eager to make a difference with machine learning and AI, HairCosys has the ideal full-time position for you. We are hiring talents in developing and deploying web and mobile products with the latest machine learning and AI technology.

Job Summary

- Managing the whole software development process from conception to deployment
- Managing the ML/AI modeling
- Modifying and testing the changed model to achieve higher accuracy

• Responsibilities

- Involved in end-to-end application development life cycle and production support.
- Deep learning algorithms TensorFlow/ PyTorch/ Caffe, C/C++/Java/Python/R
- Image recognition and image processing
- Responsible for the data development pipeline from data extraction, blending, cleansing, and processing to model creation and result visualization
- Assist in the execution of R&D projects
- Corporate with expertise in data and AI
- Research and evaluate different deep learning algorithms. Implement deep learning algorithms in computer systems
- Prepare and execute test cases for system testing.

Requirements:

- Graduate with a Bachelor's, Master's, or Doctorate in Computer Science/Engineering, Electrical/Electronic Engineering, Information Engineering, or relevant disciplines, including non-local graduate from a local university of Hong Kong
- Experience in using deep learning framework TensorFlow/ PyTorch/ Caffe/ Keras
- Experience in programming using C/C++/Java/Python/R
- Experience in one or more of the following deep learning algorithms: object detection, face recognition, voice recognition, voiceprint, natural language processing, etc.
- Preferably with experience in mobile app development
- Excellent verbal communication skills
- Excellent English communication skills
- Self-Organized and good problem-solving skills
- Attention to detail

You have to explore and bring new technologies and architectures to our technology landscape, to work with the entire development life cycle, including implementing, testing, supporting, and maintaining systems. Interested parties, please send your full resume with current and expected salary to mail@trendydevelopment.com.

About HairCosys

- A startup company based in Hong Kong, we believe that the commercialization of A.I. technology will free up humans to do what we do best and enhance our lifestyle.

Why work for HairCosys

- **“Small Team, Big Impact”:**
 - you will be an invaluable member of our flexible and agile team. You won't be put in a box and be exposed to a wide range of new technology as our business grows.
- **Disrupting the industry:**
 - You will work on our innovative projects to reform the haircare/beauty-related industry and propel them to the digital era.
- **Fast-paced career development:**
 - You will start your fulfilling and fascinating career in the innovation and technology sector, becoming a pro, and turn your ideas into reality.
