ELEC2910   Academic and Professional Development I

Course Description

A compulsory, one year course for Electronic Engineering and EE (Information and Communication Engineering) students only. This course is designed to provide academic advising to students and/or to develop students' communication skills in interacting with the technical and non-technical audiences in their professional careers. Graded P or F.

List of Topics

Students are divided into a number of small groups. Each group is assigned an ECE faculty who meets with the group three times a year (once in Fall term, twice in Spring term) alternatively as a group and on an individual basis. Each student is also required to meet the communication tutor once in the Fall term.

Statement of Objectives/Outcomes:

Upon successful completion of this course, students will have had:

CO1 – the opportunity to discuss academic and professional matters of both general and individual concern with their advisors.

CO2 – the opportunity to express their views on matters related to their study of electronic and computer engineering.

CO3 - practice with English communication, in speaking and listening, on both academic and non-academic topics.

Textbook(s):

No textbook

Relationship of Course to Program Outcomes:

Please refer to the Report Section 4.3.2 (iii).

Grading Scheme:

To get a Pass, students must attend all meetings.
