Alpha Minds Technologies
Internship Program 2026 Winter

Application Deadline: 30 Dec 2025
Application Submit to: Veronicachan@alphaminds.tech

Alpha Minds is an AI focused start-up that focuses on AI first application founded in 2025. We focus on adoption of AI in industry and AI deployment strategy.

(1)Software Developer Program

Part of a software developer in one of our product team JoyMember. You can choose a front end or a back end role.

You will learn a simple Dev Cycle, how to work with other devs in a small scale team. Using dev tools like Github, Jira

Requirement:
Hands on experience on Java or Javascript

Salary:
Provided and depends work frequency and Period

(2)Innovation Engineering, AI Engineer Program

Express your idea and build it as the MVP during the internship program.

The topic will be related to AI(including model training), LLM in industry use, etc.
You will get resources in training the AI and running Large LLM and the opportunity to get funded.

Requirement:
You will need to submit your idea in 1-3 pages and 1-3 pages about how innovative you are.
I will be the best if you could include some of your previous innovation project(pdf)

Salary:
Provided and depends work frequency and Period
