

Subject: Seeking participants for human-robot research study

A research team led by HKUST ECE and CSE Professors Bert Shi, Pascale Fung, Qifeng Chen, and Xiaojuan Ma is now recruiting Cantonese speakers to participate in an experiment studying human-robot interaction. Participants will be asked to engage in one-to-one dialogues with a humanoid robot and to evaluate the quality of their interaction with the robot.

Requirement:

Participants need to be fluent in Cantonese.

Eligibility:

UG and PG students

Time & Location:

The experiment will take approximately 60 minutes and we provide 120 HKD compensation. It will be conducted on campus.
