

Job Title: Technical Officer
Department: Department of Electronic and Computer Engineering
Job ID: 5779

Job Posting Details

The Integrated Circuit Design Center at the HKUST is a research center for a wide range of topics in IC technology, circuit and system design. We are currently seeking candidates with high caliber to fill a Technical Officer position with following duties:

1. Provide assistance in handling all operational matters of the center;
2. Setup, repair and prepare video tutorials for laboratory equipment (e.g. logic analyzer, bonding machine, oscilloscope, electronic load, frequency spectrum, etc.); and
3. Perform ad hoc responsibilities as assigned by the management.

Applicants should have a bachelor's degree in electrical and electronic or computer engineering, preferably with relevant work experience. The ideal candidate should have a strong sense of responsibility, be self-initiative and able to multi-task and work independently as well as in a team. As a liaison person for the Center, he/she should have good communication skills on inter-departmental tasks and be an intra-departmental communication bridge among different user groups of the laboratory. Proficiency in LINUX and PC system administration are expected. (Duration: 1 year) (Applicants who have responded to the previous advertisement placed on 17 Nov 2020 need not re-apply.)

Fringe benefits including annual leave, medical and dental benefits will be provided where applicable.

Application Procedure

In support of a green work environment, we accept applications submitted online only. To apply, please complete an online application form through the HKUST Careers website (<https://hkustcareers.ust.hk>) and return it online to the Human Resources Office on or before **Thursday, 24 December 2020**. Applicants will receive an acknowledgement by email upon successful submission. We thank applicants for their interest, but advise that only shortlisted candidates will be notified of the result of the application.
