

Careers at HKUST

Job Title: Project Assistants (4 positions)
Department: Department of Electronic & Computer Engineering
Job ID: 5874

Job Posting Details

The appointees will assist in the development of course materials to support mixed mode teaching. Major duties include the development of materials for online delivery of course content, including online laboratories, as well as the development of materials enabling students to perform experiments at home. As part of their role in developing course materials, appointees may also assist in course delivery so that they can properly test the developed materials, as well as further develop them based on course feedback.

Applicants should have a bachelor's degree in electronic/computer/electrical engineering; a strong interest in teaching and student counseling; expertise in digital circuit design and embedded system development; and knowledge in basic electronics, signals and systems, and communication systems. Excellent communication, interpersonal and presentation skills; and a good command of spoken and written English are required. Fresh graduates will also be considered. (Duration: 1 year)

Fringe benefits including annual leave, medical and dental benefits will be provided where applicable.

Application Procedure

In support of a green work environment, we accept applications submitted online only. To apply, please complete an online application form through the HKUST Careers website (<https://hkustcareers.ust.hk>) and return it online to the Human Resources Office on or before **Wednesday, 3 February 2021**. Applicants will receive an acknowledgement by email upon successful submission. We thank applicants for their interest, but advise that only shortlisted candidates will be notified of the result of the application.
